

“OWN IT DAY” INCLUDES:

1. SPEECH: OWN IT! (60 minutes)

Move beyond what holds you back. Fear, doubt, hate, and excuses keep us from achieving, but the thing that holds us back the most is ourselves. Ownership requires having a clear vision of who you are and what you want as well as moving beyond what holds you back. Expect lots of funny crowd interaction, thought-provoking examples, psychology tricks, moving stories, and a powerful spoken word presentation. Students leave with a new sense of ownership in life and leadership and the motivation to make it happen.

2. “OWN IT” DANCE WORKSHOP (60 minutes)

In this workshop participants learn leadership through ballroom dance. Positive communication, risk-taking, teamwork, goal-setting, and discipline are all covered in a way that is fun and memorable. It’s a fun and educational way to “break the ice” and get youth moving. (Maximum occupancy contingent upon space and sound equipment)

3. “OWN IT” PERSONALITY WORKSHOP (30 minutes)

Have you ever wondered why you mesh with certain people and clash with others? In this presentation participants complete the “Own It” personality test to help see themselves more clearly. Exercises and acting out real-life situations will make students laugh and help them make the most of their unique personality while effectively relating to and leading others.

4. STUCO LEADERSHIP TRAINING (1-3 hours)

In this training student leaders are introduced to the “Own It Curriculum” and receive a copy of “Don’t Be A Lamesauce.” Participants complete introspection exercises, mission statements, team-building activities, leadership training, and feedback systems.
