

The “P” Word: Talking About Privilege

Why are you at this specific workshop presentation?

What does the term vulnerability mean to you?

Do you see yourself as a vulnerable educator, staff member, or administrator? Why or why not?

What does the term privilege mean to you?

Do you recognize the privilege you have in your everyday life? What is that privilege?

Do you realize the privilege you have as an educator? What is that privilege?

What would happen if there was a conversation about privilege within your school? How about your school district? If it has already happened, then what was the outcome?
